Product Description

Product Description:

The LED button screen of the CMD-E01 is user-friendly and easy to operate, allowing you to keep track of your progress in real-time. The screen displays important information such as calories burned and your heart rate for an accurate view of your workout intensity. The CMD-E01 adopts internationally leading digital signals and transmission for optimal performance. This feature ensures that your workout experience is smooth and stable, allowing you to push yourself to your limits without any interruptions or hiccups. The running belt area of the CMD-E01 measures an impressive 1653MM * 560MM, providing ample space for runners of all sizes to move and exercise comfortably. The belt is also slip-resistant, ensuring that you can run with confidence and without the fear of slipping or falling. The columns and handrails of the CMD-E01 are made of 6mm thick high and mild aluminum alloy, providing excellent stability and durability. The super large handrails not only improve product stability but also showcase luxury and grandeur, making it a great addition to any home gym or commercial fitness center. The CMD-E01 Commercial Treadmill falls under the category of aerobic exercise equipment, making it an essential machine for runners' training. Whether you are a seasoned professional or a beginner, this machine is perfect for helping you achieve your fitness goals and improve your overall health.
