Product Description

Y-904 Split action wide angle high pull back trainer

The product is made by welding refined steel pipes and thickened steel plates, and the surface adopts spray painting technology for better rust prevention. Colors support customization. The back cushion of the product adopts a fixed installation, which is more stable. The back cushion is covered with high-quality leather and meticulously sewn. The barbell bar is made of 304 stainless steel material, which is durable and long-lasting. The bell blades are flexible to pick and place without getting stuck. Equipped with a tightening spring, it can better secure the barbell pieces and prevent them from bouncing during training.
