### Product Description

Y-905 split action oblique chest push trainer (horizontal handle)

The product is made of precision steel pipes and thickened steel plates welded together, with a sturdy frame that allows users to train stably and safely during use. The rotating components are equipped with high-precision silent bearings, which are flexible in movement and have no noise. The handle is protected with foam, which can effectively absorb sweat and prevent slipping during grip. The board mat is covered with high-quality leather and filled with high elasticity sponge. Enable users to sit comfortably. The training trajectory is correct and stable, with smooth and comfortable movements. It is the preferred product for fitness, bodybuilding, and training.
