Product Description

BQ-1003--Sitting chest pushing trainer

The sitting chest pushing trainer is made of precision steel pipes and thickened steel plates welded together, with a stable and reliable structure. The surface adopts spraying technology, which has a beautiful and atmospheric appearance and can better prevent rust. The chest pushing training trajectory has been designed by the designer and tested by the fitness coach. The trajectory is stable and correct, and can effectively achieve the training goal of chest muscles. The product uses high-quality steel to make counterweight pieces, with precise weight and smooth sliding. The board cushion is covered with high-quality leather, and the seat height is adjustable in multiple levels, suitable for users of various heights.
