Product Description

H-1201-Sitting bidirectional chest pushing trainer, chest muscle trainer, gym training equipment, fitness coach use

This product belongs to large fitness equipment and is suitable for use in gyms, hotels, shopping malls, and private fitness classrooms. The product is a series of products that can be matched according to needs. The product is made of precision steel pipes and thickened steel plates welded together, with a sturdy and stable structure. The barbell plate is installed in a hanging style, making it easy to install and remove. The product has a stable movement trajectory and can easily achieve training objectives. The product color can be customized according to requirements.
