Product Description

Fitness equipment accessories pulleys, multifunctional comprehensive training equipment aluminum alloy pulleys

The fitness equipment aluminum alloy pulley is a pulley designed and developed specifically for fitness equipment, which can be used on multiple products. Surface oxidation and coloring treatment, beautiful and durable. Gym products, commercial equipment, household equipment, etc. can all be used. The pulley is made of aluminum alloy material for processing and shaping, with higher overall strength. Precise high-speed silent bearings are used for smoother rotation, making the transmission of instruments more stable. There are multiple models of pulleys that can be configured according to product requirements.
