### Product Description

#### M7-Aerobic equipment, electric treadmill, cross-border exclusive supply, household use, touch screen, multifunctional

Piano lacquer craftsmanship, Nordic minimalism and clarity highlight the taste of home environment. The body lines are smooth, round and full, with 4 layers of independent coloring, wear-resistant and non fading. The red knots outline delicately and delicately, making it look like a piece of art when placed at home. Comes with a built-in tablet stand for running and watching TV shows, making it easy to exercise without monotony. You can listen to music/movies on your iPad while running. Comes with a built-in tablet stand. The commercial conical drum automatically resets without deviation, as stable as a rock, allowing the running belt to run smoothly and automatically reset, reducing deviation. The running comfort and knee protection of the new M7 are enhanced, thanks to the suspension shock absorption system and stable structural design. The running experience of the new M7 is very comfortable. We conducted a water cup running experiment in the laboratory, and the water cup placed on the treadmill only fluctuated slightly at full speed. The inner core is strong and generous, showing extraordinary qualities. Various control chips and sensors are the most critical components, except for the motor, all of which use branded components to ensure the stability of the treadmill. The powerful core refuses occasional control failures, and the control chip is the most critical component besides the motor. The HIFI Bluetooth speaker has a more convenient wireless connection, with a built-in high fidelity Bluetooth speaker that can be wirelessly connected through mobile phone Bluetooth, allowing trendy and exciting music to accompany running. One key knob control no longer needs to worry about not being used. It adopts a one key control design, and operations such as turning on/off/speed, adjusting settings, etc. are concentrated on this button. Different functions are achieved by short pressing, long pressing, and rotating. The high-definition LED eye protection display screen displays various dimensions of running indicators, including speed, time, distance, and calories, providing a reference for exercise effectiveness. Six major advantages: Multi layered shock absorption system, button infinite speed regulation, 240 kg load-bearing capacity, 56cm oversized running platform, 2.0hp motor, fully foldable storage.
