### Product Description

#### P10-1 Aerobic Equipment, Electric Treadmills, Flat Treadmills, Small Folding, Ultra Quiet Flat Electric Treadmills

This treadmill adopts a metal multi-layer multi mechanism compression design, which increases the treadmill's ability to withstand pressure and has a shock-absorbing and buffering effect. The body is thin and sturdy, durable. Handheld remote control, loved by both the elderly and children, can freely switch speed modes without the need for panel control, playing at home and walking. Six wheel drive interactive flexible shock absorption, so quiet that only the sound of breathing can be heard. Professional plastic track with multi-layer running belt design, providing a softer and more delicate starting and landing. Multi stage shock absorption system, fully decomposing the impact of running to reduce knee damage, ensuring safe running. Multi stage shock absorption decomposes lateral force, effectively reducing the reaction force of springs on the human body, protecting the floor, and reducing noise. The treadmill is easy to fold and store, with simple and easy operation, making it easy for both boys and girls to fold and reduce the footprint of the treadmill. LCD LED display panel, visible motion data when looking down, data is clear at a glance, and time, speed, and distance can be easily adjusted during exercise, allowing for a healthy lifestyle. The front section of the treadmill is equipped with two moving wheels, which can be folded and lifted to easily move to the desired place. Upgraded electromagnetic field and copper wire design motor, durable, durable, and powerful.; Although the body is small, the motor horsepower does not decrease.
