### Product Description

**Solid steel flooring:** Unlike trailers that use rubber pads on mesh flooring, trailers have solid steel flooring. You can expect dirt, gravel, coverings, and other items to be used for years without worrying about them falling off the mesh floor.

**18 inch HD tires:** With the sturdy design of our 4-layer 18 inch tires, you can ensure that your trailer can withstand a load of 1500 pounds and has an 11 inch ground clearance. Trailers with 16 inch tires have a risk of sagging to the ground under heavy loads. When sailing in muddy, snowy, or rugged terrain, sturdy crash resistant tool tires will ensure you complete your work!

**56 inch cargo bed:** With a length of 56 inches, you can maximize the load and reduce the dragging and tipping of water droplets. The foot operated quick release lock makes loading and unloading easy.
